TECHNOLOGY INTEGRATION SERVICES

Businesses are evolving and becoming more and more demanding. Specialized software's are required to remove the functional barriers and improve organizational efficiency. Many corporations are still using systems that serve their standalone needs and have a hard time in communication. This means that a lot of time is spent on validating data, entering data into multiple systems and gathering data from many different systems. Time spent on these kinds of mundane tasks could be spent on serving your company's customers instead. Business Integration services give the ability to integrate the diverse data and information sources both within and outside your enterprise into a single coherent framework.

System integration enables communication between many independent systems and their processes. When we connect different systems and applications you get faster communication with a higher security in your internal and external processes. Flexible organizations, where cooperation and optimization for existing or new business areas are in focus, have already created and implemented software integration.

Business Technologies has abundance of experience and technical savoir faire in the integration of business software. Our consultants have a solid experience from short problem solving activities to large integration solutions, where we have implemented efficiency and structure in the integration environment. Our experience in system architecture is well suited for implementing an architecture that does not bog down the company but instead ensures that the company can enjoy an IT-architecture that delivers on the demands of the business.

In recent years, the company has enjoyed grand success in the integration of enterprise software.

MIS OUTSOURCING

Business Technologies also provides MIS outsourcing services to small and medium sized businesses in order to improve their IT infrastructure and to streamline business processes and performance. We are currently relieving a number of SME's of the burden of having full time and costly internal IT employees. Using our team of professionals you will obtain the best of breed advice and expertise.

Some of our clients outsource small portion or all of their IT support to us but they all benefit by having:

. Business Grade IT Support

. Guaranteed Response Times

. Expert Technology Advice

. Broad Business Knowledge

. Friendly Customer Service

. Professional Trackable Systems

CONSULTANCY SERVICES

Meta tech Consultancy Services enable you in creating a vision for the future and reach consensus on investment priorities and information technology strategies for all major constituencies. Importantly, we focus on aligning these strategies and investment priorities with the immediate, short-term, and long-range goals of your organization.
Finally, moving from alignment to action, your information technology strategies are translated into a detailed

META TECH Consultants help devise an Information Technology strategic plan that serves as a "road map" to guide capital investments over a multi-year period and alternately can also provide a "second opinion" regarding your current Information Technology strategic plan, projects already in the planning stage and/or perform return on investment analyses as well as assisting organizations with plan implementation including tactical planning, vendor selection & contract negotiation, applications management, applications delivery and systems integration through sound trustworthy consulting services across IT Management, Business Analysis, Technology and HR consulting domains.

CREATIVE, DESIGN & MULTIMEDIA

LOGO DESIGN

Understanding your business is a key part of our design process. Our highly skilled Graphic Design team can assist you to develop a Logo that represent your company/brand image as we do understand that proper and competent branding begins with a well-conceived properly designed logo.

The things that you can expect from us are:

Fast Turnaround time
Original Designs
Print Friendly
Uniqueness

STATIONARY DESIGN

The fact is corporate stationary plays a very important part in assessing a company's approach. Our designers ensure that they always come up with top quality designs whenever a client requests stationary design. Designs that are practical, elegant and very professional. By doing so, they come up with the most impressive of visiting cards, letterheads, envelopes and etc. We also offer the services of having this corporate stationary printed on top quality material ensuring that next time you give someone your visiting card, you get nothing but praise.

WEB DESIGN

The internet is the new globally accessible art gallery. Company's bank a lot on their virtual existence on the World Wide Web through websites. These websites are accessible to a huge audience and make no mistake about it, the good ones are talked about a lot. Web designing is amongst the modern day graphic designing skills with creative parameters changing every day! Our team has designed some of the best web interfaces over the years. Our portfolio of web design exhibits the most modern of trends with aesthetically pleasing look and feel. With the use of cutting edge technologies like HTML5, CSS3.0, JQuery and Ajax we ensure a UI experience that creates an impact.

INTERNET ADVERTISING

The internet represents an opportunity to grow and market your business both locally and globally to reach new customers and expand your reach. Web banners and web banner ads for advertising your web business need to drive web traffic to your web site. Our web banner graphic design team is devoted to the creation of effective web banners, web banner ads, and web banner advertisement that drives traffic to your web site. Our eye catching custom web banner ad designs are available as any size web banner ad.

PRINT MEDIA DESIGN

At META TECH we have a dedicated team of graphic designers with an abundance of commercial experience with creative visualization. As a result of this combined expertise in the field of graphic design company for digital print design we have worked with a wide range of clients to produce highly creative innovative marketing design and print media advertisements.

MULTIMEDIA DESIGN

By multimedia design, we essentially mean video shoots, video compositing, motion graphics etc. Using these, we have produced a number of television ads, cable tv scrolls, telups and documentaries. Our services in this field include script writing, story boarding, production time and post production facilities. Our priority is to come up with creative concepts and ideas which really give our client the competitive edge whenever the production is screened somewhere.
